Thanks Mandi. The concern is that GKM START may need funds early next week b/c of some miscalculations and this \$100k for Bullion is coming from the only pot and I don't know if/when/how much we will get during the CR. I just want to make sure everyone is coordinating so we have the funds when we need it.

Ben the exception form is specific for Bullion Mine which is running out of funds not specific to GKM. The email that Joyce sent is for funds that are already on the START contract. She just wanted to give everyone a heads up on the burn rate....

Hi Kendra,

Is this GKM? If not, do we have the funds available to complete this? Also, I know Joyce is working on some START actions too. I'll forward that note...is this part of those actions?
